GENERAL CATALOGUE.

SECTION I.

In the general catalogue of 1857 there was published a catalogue of the students of the school when it was located at Barre. Circulars were addressed in 1889, in accord with the names and residences given in this catalogue. During a period of nearly fifty years so many had passed on or had so changed their residence that very scanty replies were received to the circulars. The items of information received were entered upon our records, but so little was received that it was deemed best in the present issue to reproduce the Barre catalogue as it appeared in 1857. Any one who can furnish items of information respecting any one named in this catalogue will confer a favor by addressing the same to Westfield Normal School. The next general catalogue that is issued it is hoped will contain much additional information.
